ERP Selection & Implementation Newsletter

"Where books are burnt, in the end people are also burnt."
~ Heinrich Heine

December 19, 2014 ; 2014-6

ERP SELECTED

To repeat from the previous newsletter, many thanks for all your interest and participation in our ERP selection process. Your involvement in the presentations, webinars, visits to other campuses, and, most especially, your thoughtful consideration and input have been greatly appreciated.

Considering everything we could and in the final analysis Information Services recommended and the President's Cabinet approved CAMS Enterprise from Three Rivers Systems.

We are currently working with CAMS to craft a contract that will match our abilities to pay from the unfolding Title III grant and anticipate signing in January. The current timeline anticipates work to begin by the end of January with a "go live" date of January 1, 2016.

Again, many thanks. Merry Christmas to all, and to all a good night!!
