Tony Hardesty mentioned when the cafeteria is closed staff cannot get in to use the lounge. This happened during the week of spring break. It was discussed and decided Tony will have a key in his office for use when the cafeteria is closed.

Summer was contacted to see if the Staff Council would take over the end of the year celebration for faculty and staff. The decision was made the council will help with the event this year but feel it should be housed in Human Resources.

A discussion was had regarding the College's dress code policy. Some employees follow it, and some do not. We discussed having a "dress for the day." For example, if you are working in the basement cleaning out files you could wear jeans. When the trustees are on campus, or a special event is being held you should dress more professionally. The committee decided the dress code needs to either be enforced or changed.

The question was asked if Cabinet has decided when the Martin Luther King holiday would be moved. Summer has not been informed of a new date.

There being no further business the meeting adjourned at 1:54.
